

Tools > Punching > Manual, battery-powered sheet metal punching tools and heads

Type: HT-FL75

HYDRAULIC PUNCHING TOOL, SUITABLE FOR PUNCHING SHEET METAL UP TO 3.5 MM THICKNESS

Technical information	
Operating temperature range	-15÷50 °C
Nominal pressure of hydraulic fluid	700 bar
Pressure relief	Manual
Pressure control system	max pressure valve
Hydraulic oil type	ENI ARNICA ISO 32
Recommended PPE	01: Gloves;Gloves;02: Sa- fety glasses;Safety glasses
Maximum round drilling diameter	140 mm
Maximum square drilling side	138 mm
Maximum rectangular drilling side 1	72 mm
Maximum rectangular drilling side 2	136 mm
Maximum drilling thickness	3.5 mm
Power supply	Manual labor

Weight and dimensions	
Operating weight	3.67 kg
Dimensions	452x129x65 mm
Maximum dimensions	452x295x65 mm

Certifications and approvals	
REACH	Yes

Logistica	
Minimum packing unit	1
Standard packing unit	1
